Bucks Recycling announce sponsorship deal with TFP

Thame Football Partnership are delighted to announce that Thame based Skip Hire company Bucks Recycling is to provide sponsorship for the TFP website and become a corporate partner at the new facility at Meadow View Park, the home of Thame Football.

Paul Bailey, Finance Manager commented, “we are a local business providing a professional and flexible waste management service to all of our customers. Having seen what TFP are doing locally for the community we wanted to be part of this and help support the football partnership through this sponsorship.

Bucks Recycling have also signed up for a 2 year package for advertising on one of the perimeter advertising boards at the new football stadium.

“Its a good way of promoting our brand and getting our identity visible to a lot of new prospects on a weekly basis” said Bailey.

“The business is looking to move shortly to a new five acre site which will enable them to increase their overall recycling percentage to over 90% when their new state of the art Waste Transfer Station is built.”

For more details visit bucksrecycling.co.uk

“With Thame United poised for promotion back into the Hellenic Premier Division again and back in Thame for next season we are hoping that attendances will increase with support for all of the sides playing at the site” said Bailey.

For more information on perimeter advertising at the stadium or for any corporate sponsorship opportunities please contact frank.thompson@thamefootball.co.uk or visit the TFP website at www.thamefootball.co.uk
