Local Opportunities at New Stadium Development

Thame Football Partnership (TFP) will be holding an open evening on Thursday 11th February at Thame Town Hall, starting at 7.30pm to invite local businesses and companies wishing to tender for work on the new community complex at Church Farm to meet with the main contractors Buckingham Group who have been appointed by TFP to build the facility. Buckingham Group have much experience in stadia construction having recently completed the build of the MK Dons Stadium and about to commence building Brighton's new £60m stadium.

TFP are keen to get as much local involvement in the project as possible and this will allow businesses an opportunity to demonstrate their services.

Initial groundwork is expected to start at the 20 acre site in mid February with completion due in the Autumn

Further information on the evening can be obtained by contacting admin@thamefootball.co.uk
